LEGENDARY TRAIN

In the shadow of the needles of time, Puy du Fou has envisioned for you a 4,000-kilometer spectacle aboard a legendary train. Le Grand Tour of Puy du Fou stands as a true ode to beauty and refinement.

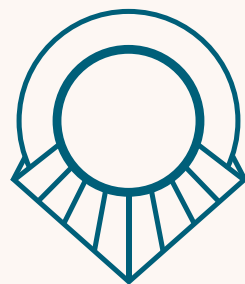

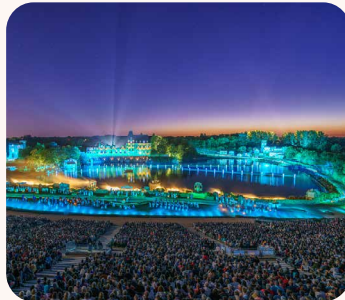

A genuine masterpiece on rails thanks to its elegant silhouette evoking a bygone era. Its cars adorned with delicate gilding are like open doors to a time when beauty and elegance were paramount.

Like a memory bearer, our vintage train guides you around France to encounter the past and forgotten periods, illuminating the windows of history.

Small attentions reveal themselves at every moment: the delightful scent of tea mingling with the effluvia of history, the delicate dishes that awaken the taste buds, the whispered voices of passionate guides revealing the secrets of the treasures encountered.

Through the windows, the landscape slowly unfolds like a living painting. Comfortably settled in your cabin, let yourself be enthralled by the changing panoramas, the hues of vineyards, the waves of golden wheat, and the sparkling rivers. Every kilometer traveled is an invitation to contemplation. In this enchanted bubble, time seems suspended.

FRANCE IS OUR GREATEST SHOW

THE SHOW

LE GRAND TOUR, DISCOVERING THE WONDERS OF FRANCE

More than a journey, Le Grand Tour is a 6-day, 5-night show, a real immersion in the French wonders, imagined and staged by Puy du Fou.

DAY

MORNING: In the early morning, we leave the city of Paris. The train sets off for **Reims**, the promise of an enchanting escapade. The scenery flies by, anticipating the discovery of the **city of kings** and its sublime **cathedral**.

AFTERNOON: After lunch, the journey continues to **Beaune**, the jewel of Burgundy. The region offers some of its most beautiful scenery and polychrome roofs. We assist to a private tour to discover the unusual and secret sites of the famous **Hospices**.

On certain dates, only one of these two cities welcomes you: **Reims** with its **sparkling bubbles** or **Beaune** with its historic **Hospices**. Each destination promises a unique immersion in exceptional heritage and unforgettable tastings.

DAY

MORNING: The night guides us towards Provence, and we arrive in **Avignon**. The **palace of the popes** reveals its best-kept mysteries right up to the rooftops.

EVENING: We leave Avignon behind and return to the train. Picturesque landscapes follow one another until sunset, adorning the majestic city of **Carcassonne** in a unique dress. In the cobbled streets, the footsteps of knights preparing for battle still echo.

DAY

The iodized Atlantic air beckons and the **Bay of Arcachon** reveals its splendors. Fresh from the **Dubourdieu workshops**, we climb aboard a pinnacle for a timeless moment on the basin.

On certain dates, a whole new adventure awaits us: heading to **Bordeaux** and **Cahors** and their exceptional vineyards. Let yourself be enchanted by the beauty of the **rolling landscapes** stretching as far as the eye can see. Immerse yourself in the centuries-old history of these terroirs while savoring **exceptional wines** in **prestigious châteaux** and their **ancestral cellars**.

DAY

MORNING: The vibrations of the train awaken us. Jewel of the Atlantic, **La Rochelle** proudly stands on the shores of the ocean. In the distance, the medieval towers rise with elegance, bearing witness to its rich maritime past. The paved streets come alive with a friendly atmosphere, where the aromas of seafood mingle with the sea breeze.

EVENING: The end of the day illuminates the **Cher** with golden reflections. On the horizon rises a limestone miracle adorned in the warm hues of sunset: **Chenonceau**, **The Ladies' Château**. A moving private tour awaits us.

DAY

Le Grand Tour ends with a spectacular journey back in time at **Puy du Fou**. Over the course of a day, history blends with legend to come alive again until nightfall, when the **grand spectacle of the night** shimmers under the stars.

On certain dates, at dawn, Saint-Malo slowly awakens with the scent of traditional Breton galettes stirring our senses. Then, we continue our journey to **Mont-Saint-Michel**, where the **abbey** unveils itself under the golden hues of twilight, while the sea, a timeless companion, cradles the island in a peaceful glow.

DAY

MORNING: As we enjoy a brunch on board, the scenery gently unfolds. In the blond light, the breeze sculpts the wave across the wheat fields. Our memories will carry a scent of eternity for a long time to come.

Our itineraries may vary depending on departures. Contact our ambassadors to learn about the detailed program of your trip and choose the ideal date. The show and the tours are available exclusively in French and English.
